

Practice Area

①

$$A = \frac{1}{2}bh$$
$$(0.5)(5)(4)$$
$$A = 10\text{m}^2$$

②

$$A = \frac{1}{2}bh$$
$$(9)(7) \div 2$$
$$63 \div 2$$
$$A = 31.5\text{cm}^2$$

③

$$\text{Perimeter} = 2l + 2w$$
$$2(12) + 2(4)$$
$$24 + 8$$
$$= 32\text{m}$$

$$\text{Area} = lw$$
$$(12)(4) = 48\text{m}^2$$

④

$$\text{Perimeter} = 4s$$
$$4(6)$$
$$24\text{yd}^2$$

$$\text{Area} = s^2$$
$$(6)^2$$
$$= 36\text{yd}^2$$

⑤

$$C = 2\pi r$$
$$2(3.14)(5)$$
$$= 31.4\text{m}$$

$$A = \pi r^2$$
$$(3.14)(5)(5)$$
$$A = 78.5\text{m}^2$$

$$\text{or } C = \pi d$$
$$(3.14)(10)$$
$$= 31.4\text{m}$$
