

It's all About the Signs

Go back to your song - same signs add
+ keep - opposite signs subtract.

$$\textcircled{1} \quad +3 + 2 = 5$$

same +

$$\textcircled{2} \quad 5 - 2 = 3$$
$$+5 - 2$$

different - subtract

circle the signs !!

$$\textcircled{3} \quad 3 \textcircled{-} \textcircled{-} 4 \text{ same signs +}$$
$$\textcircled{+} 3 \textcircled{+} 4 = 7$$

$$\textcircled{4} \quad 3 \textcircled{-} \textcircled{+} 4 \text{ opposite signs -}$$
$$\textcircled{+} 3 \textcircled{-} 4 = -1$$

$$\textcircled{5} \quad -2 \textcircled{-} \textcircled{-} 1 \text{ same signs +}$$
$$\textcircled{-} 2 \textcircled{+} 1$$

-1

opposite signs -

$$\textcircled{6} \quad -5 \textcircled{-} \textcircled{+} 7 \text{ same +}$$
$$\textcircled{-} 5 \textcircled{+} 7$$

= +2

opp. -

$$\textcircled{10} \quad -6 \textcircled{+} 3 = \text{opposite}$$

-3

$$\textcircled{7} \quad -5 \textcircled{-} 3 = -8 \text{ same +}$$

$$\textcircled{11} \quad 7 - 3$$

+7 - 3 = opposite

$$\textcircled{+} 4$$

$$\textcircled{8} \quad -1 \textcircled{-} 14 = \text{same +}$$

= -15

$$\textcircled{12} \quad -3 \textcircled{-} \textcircled{-} 2 = \text{same}$$
$$\textcircled{-} 3 \textcircled{+} 2$$

= -1

opposite

$$\textcircled{9} \quad -6 \textcircled{-} 3 = \text{same +}$$

-9
